### December 17, 2021 – Manchester Beis Din (MK) Update #2

Sent as an MP4, we converted this into convenient pdf format. Here is the text version, followed by the Direct Download Link:

**“Chodosh - חשש חדש**

**Update No.2- 16th Dec. '21**

This year, due to **פסח** having fallen early in the Spring, the **חשש חדש** has increased greatly.

Those who are particular with products containing **ספק חדש בחו"ל**, should refrain from consuming Kellogg's cereals (bearing our Kosher MK logo), that contain any of the following ingredients; Barley Flour, Malt Extract, Oat Flour, Oat Flakes & Wheat Bran. Most of the cereals will contain one or more of these ingredients.

The above **חשש** applies to products with a production date of 01/11/2021 and later.

**The exception to this is, Kellogg's Cornflakes, Frosties, Coco Pops & Bran Flakes with code 0345 or 0346 printed on the packaging, that are ישין all the way through to פסח.**

We can confirm that Mornflake Oats, Nestle Cheerios & Gluten Free Cornflakes are **ישין**.

Cereals with an earlier production date than November, will be easier to find in the smaller supermarkets and grocery stores, than in the bigger stores.

**THE ABOVE DOES NOT APPLY TO OUR MK CERTIFIED CEREALS EXPORTED TO ERETZ YISROEL, WHICH ARE ALL YOSHON.”**

[TYNI Note: The above date is in European format, and is actually November 1, 2021, NOT January 11<sup>th</sup>.]
