The Official Yoshon.com App Update

B"H, the Official Yoshon.com Mobile App has been successful in its very short time of availability, with 101 downloads for iPhones, and half that for Androids. If you would like to read more about the app, go to this link: <https://yoshon.com/mobile-app/>. There are many pictured examples.

We hope that in the upcoming *chodosh* season, our app will help make shopping and keeping *yoshon* even easier than before. We will be working toward getting as many UPC barcode numbers as possible. If you know of any products that are on our site but are missing the exact (usually 12-digit) number, please do not hesitate to send us a picture of the product and actual UPC for inclusion. Finding accurate information online is extremely hard, especially for “Jewish” brand products. Any help is greatly appreciated, and helps everyone.

Not much news since everything is *yoshon*, so we will report some old news...

“Bootleg/Illegal” Copies of the Yoshon.com App

When something good comes along, there are always those who try to exploit it for their own gain. Just to note, there are websites that have reverse engineered our app and offer it for free. Not only is this considered theft according to Torah Law, but it is quite possible that these “free” copies can lack security, not work properly, damage your phone, or potentially contain malware or worse. (“Free” may come with a huge cost in the long run!)

We will only support the app when bought from the official App Store or Google Play. It comes with lifetime maintenance and updates, that is what you are paying for. When purchased from the app stores, it is guaranteed to be safe and secure.
