February 13, 2023 – UOS of South Africa Full Update on Yoshon Products

Almost all products are updated for the season with the exception of one flour. All of the South African oats and barley are all still *yoshon*. The Direct Download link is below:

TYNI Note on the App and Yoshon.com

Sometimes people complain that their product is not on the site or the app. Much of the time it is because we have no information on it. However, if there is an item that is normally on our site but does not show up, often this is due to us simply missing the proper UPC bar code number for that product.

Companies often add new flavors or change sizes of their products, and this requires them to have a whole new UPC code. In these instances, we ask that people please send us a picture of the UPC and the front of the package so that we can add it to our database.

Many thanks to all those who have done this already. You are helping to keep the site accurate and up-to-date!

Kol Tuv,
The TYNI Staff
