GENERAL YOSHON NEWS

Chodesh Tov!

We wanted to take a moment and give a big “Thank You” to all of our Admins who assisted this past season on our Yoshon.com WhatsApp Groups. They were a great help for all!

Many group members stated their appreciativeness for the groups. If there is anyone who has not yet joined, here is the link to go to for becoming a group member: <https://yoshon.com/wapb-1/> .

There won't be very much news over the next few months, but we will still be doing plenty of work behind the scenes to get ready for the next *Chodosh* season.

Some of the items on the agenda are:

- Several subscribers and WhatsApp members have requested that we place our chatbot assistant YAIR on only a few specified pages, so “the little guy” won't keep getting in the way on displayed product entry listings, tending to interfere with phones having smaller screens.
- Tools are being developed for Yoshon.com and the app, such as a general date code calculator and a Julian date calculator.
- We would like to add some educational and entertaining game-like features.
- The button for the WAPBot security guard for joining the WhatsApp Groups may be taken off the app, and replaced with one of the above-mentioned items.

It may be years in the future, but there is exciting potential for an AI-based feature to actually inform people if their item is *yoshon* or not. You as a *yoshon* keeper, are indirectly contributing to the current popular AI-based language learning models. How? By accessing and using the readily available *yoshon* resources on the internet. We had dreamed of such a thing for years, and such technology is rapidly developing.

We may be TYNI, but we dream BIG!

Kol Tuv,
The TYNI Staff
