

GENERAL YOSHON NEWS

Chodesh Tov!

There is a little bit of news for this month, however, things will likely start picking up by next month. During this time before the official dates are released, it is advisable to start stocking up on items like oats, and refrigerated items.

July 3, 2023 – Project Chodosh Bulletin Update Projections

“Dear Chodosh Subscribers,

1. We apologize but we are unable to accept Zell payments. Please use the following link for online donations:

<https://secure.cardknox.com/chodoshproject>

2. We have received numerous requests for this years guide. We are unable to produce the guide until the harvest begins. It is projected to begin at the end of this month and we hope to release the guide by the end of August.

3. Sage purchase dates for Yoshon products:

Oats: July 15

Wheat: July 25

Barley: July 28

Durum Wheat: Aug 1.

The actual cut off dates are likely to be at least a few days later.

TYNI Note: In order to avoid the confusion that this subject inevitably causes, it should be noted that Project Chodosh mentions “safe *purchase dates*”. These “purchase dates” are NOT the same as the general grain cutoff dates. General grain cutoff dates are the actual dates that all product cutoff dates are derived from.

“Purchase dates” are merely *estimates*, and can vary with many conditions, such as shipping locations, individual store sale prices, and stock rotation. With the sole exception of freshly baked goods that have a short shelf-life time, we at TYNI ignore “purchase dates”. Instead, we use the actual grain cutoff dates, which are far more accurate.
