## Final Cutoff Dates from Project Chodosh 2

Shavua Tov,

### September 2, 2023 – Final Dates from Project Chodosh

This just in from Project Chodosh:

“Dear Chodosh Subscribers,

1. FINAL Oats date: Production date of August 29 and a Purchase date of September 15. Please stock up before then to avoid problems later on.
2. FINAL Wheat date: Production date of August 19 and a Purchase date of September 1, except for fresh baked goods in the midwest that have a cut off date of August 20.
3. FINAL Barley date: Production date of August 15 and purchase date of August 25.
4. FINAL Durum wheat: Production date of August 18 and purchase date of September 5.
5. Barley malt is not an issue at all yet and does not need to be checked. Please be aware that there have been changes in barley malt production over the years and the guide is revising its guidance about malt based on the new information. Updates will be issued as soon as they are available.
6. Spelt and Rye are all Yoshon and do not need to be checked.

Clarification: All products can be purchased until the relevant purchase date without checking for Yoshon status. Once that date has passed, Yoshon status of each product needs to be checked. Yoshon codes for many products will be published in the Guide to Chodosh.

Now that we have codes, we are working on producing the guide as quickly as possible and hope to send out at least the pre-edit email version next week.

Mrs. Rosskamm”
