

**GENERAL YOSHON NEWS**

*Chodesh Tov and Chag Chanukah Sameach!*

**Debut of the TYNI Product Manual**

With the *Guide to Chodosh* sadly coming to an end, TYNI in cooperation with AKO (Association of Kashrus Agencies) had the necessity to have another similar publication in place so that information could continue uninterrupted for consumers. As of December 5<sup>th</sup>, we finally had enough information put together, to cover a good majority of items.

One nice thing about the Manual is, it gets updated very frequently as the site gets updated, and may be updated every few days, as items continue to be added. It contains our Yoshon Flours, Cereals, and Beer Lists, as well as “Always Yoshon Hechsherim”. It is in pdf format for download. It was made to be user-friendly, being searchable and easy to navigate. It can also be printed out.

We hope this document will be helpful to everyone. The link to go to download the *TYNI Product Manual* is: <https://yoshon.com/updates-downloads/#TYNIManual>

**December 6, 2023 – B"H, Our TYNI Fundraiser Met Its Goal!**

A huge “Thank You” to all who donated to TYNI’s “Yoshon.com Needs YOU!” fundraiser! We are so pleased to have reached and even surpassed the original goal by \$652 at the time of this publication. People continued donating even after the campaign ended. The Chesed Fund allows it, and simply adds to the total of the campaign. After one week goes by, subsequent donations via the Chesed Fund, get sent separately. We will still receive it.

They now send tax deduction receipts, so we no longer will have to send out letters. Donors receive the receipt by email as soon as they donate. Those who donated via Stripe and PayPal through Yoshon.com, will still get an emailed donation letter from us manually.

B"H, we can continue helping Klal Yisrael to keep yoshon throughout this year and the next! Tizku L’Mitzvot!

## **December 11, 2023 – Daiya Non-Dairy “Cheeze” Now Contains Oats**

Many of us love the non-dairy cheese alternative “Daiya”, but a sharp-eyed member of one of our WhatsApp groups discovered they are now all made with oat milk. The company gave us the shelf life information for all their problematic “cheeze” products, and those are now listed on our site.

Their Cheezy Mac still contains no problematic ingredients and is “Yoshon by default”, but the company does have plans to revise its recipe to use oats in the future. Check the ingredients to make sure if it is still *yoshon*.
