UK & TYNI Manual Updates

December 4, 2024 – The Latest TYNI Product Manual

This issue has a lot of new products, some updated statuses and dates, Julian Calendar Charts, the STAR-K Quick Reference Guide, and a slightly revised cover.

Several people have asked if there is a way to tell when a product status or date has changed since the last issue. As it is stated in the first page, there will be an asterisk (*) at the beginning of the entry. It doesn't happen often, but there are a few in this issue for Kemach.

This issue is going to be printed soon. We will announce when and where the printed version will be located for pickup. The price is \$3 to cover the costs for our printing sponsor STAR-K
