TYNI Notes: Clarification on Oat Dates:

Per popular request, we are explaining the differences between the oats mentioned in the updates.

“Quick” Oats are simply thinly cut raw oats that cook quickly and have only been cut, just as wheat flour is finely ground. They are merely packaged, then get shipped to the store sooner.

“Instant Oatmeal” has gone through processing like par-boiling, and are often mixed with other ingredients and flavorings, which adds a time delay to the cutoff date.

Chag Sameach,
