

KLBD UPDATE 2

05 March 2026

CHANGES:

Some packs of **Kendamil Goat Follow On Milk 2** and **Kendamil Goat Toddler Milk 3** have been mislabelled with a KLBD Parev logo, but they are certified **KLBD Dairy (Chalav Akum)**.

With reference to our previous advice that **supermarket own brands** of Corn Flakes, Crisp Rice, Frosted Flakes and Honey Nut Corn Flakes were approved if bearing a product code ending **0953**, we have been informed that production has now ceased. **Old stock with a BBE date up to the end of August 2026 is still approved Parev.**

To check the kosher status of other supermarket own label cereals, see [www.isitkosher.uk](http://www.isitkosher.uk). The approved products do not require any special production codes.

**Nutella Plant Based Chocolate Spread**, previously approved Dairy Equipment (Chalav Akum), is now approved **Parev**.

**Wall's Twister Pineapple Lolly, Twister Pineapple Mini Lolly** and **Twister Tropical Mini Lolly** previously approved Parev, have changed formulation and now contain milk. They are approved **Dairy (Chalav Akum)**. **Old stock** which does not list **Skimmed Milk** in the ingredient's declaration is still approved **Parev**.

Twister Berrylicious Lollies and Fruit Zinger Lollies remain approved Parev as previously.

Please note that **Twister Mini Mallow Lolly** is **Not Kosher**.

Previously, **Wrigley's** and **Hubba Bubba** products were certified Parev by KF when bearing the logo or when the product code next to the date stamp began with 01 or 50 or contains 1FK. Now products bearing codes containing 1F0 are also certified Parev. (Doublemint made in the Philippines and Juicy Fruit made in Kenya are not approved.)

THE FOLLOWING PRODUCTS HAVE BEEN ADDED:

Category	Brand	Product	Status	Logo	Notes
